

Intra Hoof-fit

Intra Hoof-fit Spray

انٹرا ہوف فٹ سپرے

Strong adhesion power:

The unique development is a specially created 'pearl-network' that keeps the active substances homogeneous in solution and ensures that the product sticks firmly to the hoof. Spot-spraying on the hoof guarantees long contact time at a lower dosage. Adhesion is excellent even on wet skin or hoof.

Instant ready-to-spray for all spraying systems:

- The use of the manual spray or automatic sprayer is recommended with the Intra Hoof-fit Spray.
- Besides individual spraying sessions, whole-herd protocols have been gaining in popularity.
- Intra Hoof-fit Spray is developed for use in all seasons.

The Intra Hoof-fit Spray has the following advantages:

- Ready to use (no dilution is required).
- Early lameness detection (more focus on hooves with weekly spraying sessions).
- 100% clean solution (each hoof gets product uncontaminated).
- Environment friendly (good adhesion helps to minimize run-off on the floor).
- Safe to use (no formalin, antibiotics, acids & offensive smell).
- Easy product detection (green color ensures that no hoof is accidentally omitted).
- Optimum viscosity (prevents blockages of the spraying nozzle).

Recommendation:

- We recommend using our Intra Hoof-fit clean and control with the weekly spraying sessions to optimize hoof health management.
- Cows with lameness issues need special care and attention.
- Use a professional hoof trimmer to treat your animals before implementing a spraying protocol.

How to use Intra Hoof-fit Spray:

طریقہ استعمال:

1

Do not dilute this ready to use product.

پراڈکٹ سپرے کے لئے تیار ہے۔ اس میں پانی مکس کرنے کی ضرورت نہیں ہے۔

3

Apply Intra Hoof-fit Spray on the back and in interdigital spaces of the hind legs using low-pressure sprayer or any automated sprayer.

کھروں کے پیچھے اور انڈر ڈیجیٹل سپیس میں سپرے کریں۔

2

If necessary, rinse the hooves and interdigital spaces with water to enhance skin contact.

اگر کھر صاف نہ ہوں تو کھروں کو اچھی طرح پانی سے دھولیں۔

4

Use Intra Hoof-fit Spray once per week. With initial application, twice per week is recommended.

شروع میں ہفتے میں دو مرتبہ اور پھر بعد میں ہفتے میں ایک مرتبہ سپرے کریں۔
